

Hello, I am Jill Allison and I have lived in Port Townsend for 8 years. When I came, I worked as an acupuncturist and have since had the grace of retirement. Ah, what a life!

The caring and energetic people of Port Townsend, and their love of gardening are a perfect fit for **Neighbors for Pollinators**. Please **VOLUNTEER TO HELP!**

The dream is to have a group that would have lots of fun pursuing these goals. Fun and plants and pollinators-what a great mix for our community of Port Townsend.

I hope you find this presentation inspiring and join me in making P.T. a great town for supporting pollinators.
