

To Port Townsend City Planning Department

Dove House Services respectfully requests a revision to the site specific comprehensive plan amendment application previously submitted regarding the 2 properties located at 909 and 939 Kearney Street, Port Townsend. We originally requested a rezone from C-1 to CII for both properties.

We understand after meeting with city staff that a rezone from C-1 to C-1MU would allow for more housing and service opportunities to be provided by Dove House Services in the future.

At this time the applicant has no project in mind. With a new zoning designation, however, applying for housing grants and future development would be possible.

Thank you for your consideration.
